Fiscal Year

July 1, 1996 to June 30, 1997

CITY OF

RUTLAND, VERMONT

Dedication for 1997 Annual Report

Volunteers install holiday decorations in Downtown Rutland's newly reconstructed Depot Park.

This Annual Report is dedicated to all the people who contributed to the remarkable redevelopment of Downtown Rutland. In 1998 we will celebrate the tenth anniversary of the "Share the Vision" project which brought together over four hundred people to imagine a better future for the heart of our community. Since then, hundreds more have worked tirelessly to make that vision come true.

The success of our redevelopment program is the result of their sound planning, hard work and dogged persistence. This report is dedicated to honor every person who gave of their time, talents and resources to make Rutland a better community. We, and generations of Rutlanders to come, are in your debt.

Per Capita Income Change 1990-1995

Mayor's Message

Jeff Wennberg, Mayor

To the Honorable Board of Aldermen and the Citizens of Rutland

The City of Rutland continued to make progress throughout the fiscal year that began July first, 1996. The overall economy remained strong, more progress was made in our continuing downtown redevelopment program, and we held the line on taxes for general city purposes.

One of the year's biggest surprises came on September eighteenth when Tambrands announced that they would close their Rutland plant after fifty-three years in the community. Two hundred and sixty Rutlanders, averaging fourteen years with the company, lost their jobs starting in February. It seemed that just as we had recovered from the recession and things were looking up, Rutland took another blow.

The loss of Tambrands was the worst news of the year. It was quickly followed, however, by some of the best. Just over a month after the announcement, Rutland Plywood Corporation announced that they would purchase the Tambrands Plant on Park Street, adding 100 jobs. Through the balance of the year, as Tambrands phased out, Rutland Plywood geared up with almost no "down time" at the plant. Their prospect for growth and even more new jobs has never been better.

In many other communities, the loss of an anchor employer like Tambrands has lead to major hardship as the displaced workers and vacant plant wait years for new opportunities. And with a homegrown success like Rutland Plywood in control, Rutlanders needn't fear that once again decisions made far away will put them out of work or harm our community.

In early December, the long-awaited dream of restoring passenger rail service to Rutland became a reality. For the first time in forty-three years Amtrak began daily round-trip passenger service between Rutland and New York City. A temporary train station was provided by donations from Killington and Okemo ski areas on land owned by CVPS to the rear of the shopping plaza near the parking deck. During the summer of 1998 the land will be acquired by the city and the tracks will

be moved to the west. This will allow us to build a new train station with federal grant funds secured through the efforts of Senator Jim Jeffords. The Ethan Allen Express consistently surpassed ridership projections through its first year of operation.

At the end of January, yet another milestone was reached with the grand opening of Wal-Mart in downtown. Although the redevelopment of downtown was well under way when K-Mart departed to their new facility in the Diamond Run Mall, the late decision by CVPS to cancel their corporate headquarters project left a gaping hole in the plaza. Efforts to woo national giant Wal-Mart were led by the people at NET Realty, the Plaza's owners, and included the Rutland Redevelopment Authority, the Preservation Trust of Vermont and even Governor Howard Dean.

Wal-Mart represents the second major retail anchor in our central business district, following Price Chopper. While many communities rightfully fear the effects of an out-of-town Wal-Mart, Rutland's store in the heart of downtown draws strength to our commercial core

rather than sapping it away. Not surprisingly, in 1997 downtown Rutland has seen more activity and life than has been the case in decades.

Taxes for the Fiscal Year beginning July first, 1996 were up \$62.50 on a \$100,000 house. Of this, \$45 was for schools, \$13 for special taxes approved by the voters, \$4 for city services within the jurisdiction of the major and board of aldermen, and 50 cents for the county tax.

Fiscal Year 97-98 taxes increased \$57.50 on a \$100,000 house, nearly all going to general city services and streets. The largest increase went to cover snow removal and other winter streets' maintenance costs. These items had been underfunded for several years, forcing a reduction in our paving program to cover the costs of overtime and winter salt. With a little cooperation from mother nature we should now be able to use all the paving funds for paving.

Last March, Rutlanders narrowly defeated a \$3.9 million bond issue to expand the central fire station on Center Street to include a new police station. In addition, life safety code and other improvements would have been made to City Hall to make the structure safer, more efficient and allow for the reuse of the old police station for new city purposes. The need for these improvements is obvious to anyone who has visited City Hall.

This summer, a special committee appointed by Aldermanic President John Cassarino and Chaired by Alderwoman Sharon Davis have been studying the plans and budget of this project with the hope that it could be refined and resubmitted in March 1998 for voter consideration.

No project of this magnitude should be viewed lightly. Each of us should be satisfied that the proposed project is needed and the expense justified. But the need to make major

life safety and accessibility investments in City Hall cannot be avoided, and the need for adequate and efficient space for police personnel is long overdue. I urge all Rutlanders to pay close attention to the issue so that if it comes to a vote again it has the best chance to succeed.

One of the goals of the redevelopment program was to create more jobs for Rutlanders. And, in fact, we have seen increasing employment since the end of the recession. When jobs are created, there is more competition for the services of workers. With any commodity, greater demand creates a higher price. In other words, even if you remain in the same job, a strong economy should result in higher pay and better benefits.

Figures recently released by the US Department of Commerce show that between 1990 and 1995, Rutland County residents had the fastest growing incomes in the state of Vermont. As shown in the chart, the average yearly increase in income per person was 4.5%, a full half percent ahead of the state average and outpacing all remaining thirteen Vermont counties. This is the strongest evidence to date that the success of our redevelopment program is moving beyond bricks and mortar and into the paychecks of Rutland area workers.

I want to thank the Board of Aldermen and all the folks serving on boards and commissions who work so tirelessly for little or no pay to keep our community moving in the right direction. Special thanks to all the city workers who plow the streets, keep the peace, manage the funds, maintain the public spaces and perform the thousands of other jobs for our benefit. I also wish to thank my bride of twenty years for her support and understanding - without which I could not serve this community with the energy and enthusiasm Rutlanders deserve.

Report of the President of the Board of Aldermen

John P. Cassarino, President

To the Citizens of the City of Rutland

During Fiscal Year 1997, the Board of Aldermen continued to support downtown revitalization efforts. Results of these efforts are readily observed in the downtown area. Wal-Mart has replaced K-Mart and several smaller national chain stores have filled the Downtown Shopping Plaza.

The Board of Aldermen supported reestablishment of passenger train service and approved use of Zambas Impact Funds for planning purposes. The AMTRAK Ethan Allen Express now runs daily between Rutland and New York City. The City has applied for grants to fund construction of a railroad depot downtown behind the Shopping Plaza.

Construction of the Multi-Modal Transit Center project should solve the City's parking problem. However, its construction has temporarily increased the parking dilemma in downtown Rutland and the Joint Parking Committee has been wrestling with various alternatives to alleviate the temporary problem.

A \$3,900,000 bond issue to construct a new public safety building to house the Police Department adjacent to the existing Fire Station and to renovate areas of City Hall failed to win approval at the Annual City Election. The margin of defeat was narrow. I proposed, and the Board of Aldermen agreed to, the formation of a select committee comprised of two Aldermen, a member of the Police Commission, and two citizens, one appointed by the Mayor and one by the Board President. Alderman Sharon Davis agreed to chair the committee. Alderman Christopher Louras, Police Commission Chairman Edward Reiman, Greg Thayer and Jim Richards are the other committee members. The committee has been aggressive in its

investigation of the proposal and has been meeting with all involved: Fire Department, Police Department, City Hall Departments, neighbors of the proposed project, and architect Alvin Figiel. The committee will present its report by November 3.

After much public debate, the Board adopted a public indecency ordinance. The impetus behind the adoption of the ordinance was an increase in establishments offering unrestricted adult entertainment.

New education funding legislation will severely limit the City's ability to grant tax stabilization to industries after June 30, 1997. The Board of Aldermen approved stabilization agreements with Ellison Surface Technology, Leonard Knappmiller, Interstate Manufacturing and the Vermont Country Store just in time to beat the deadline. On June 30, the Board also approved an amendment to the Airport Industrial Park Agreement between City and Clarendon to permit stabilization at the Airport Industrial Park despite the limitations imposed by the new educational reform legislation.

The Board has tentatively approved wastewater allocations for American Skiing Co. to serve the planned expansion of the Killington/Pico ski areas. Easements were also granted to the National Park Service in the City watershed.

I would like to thank the members of the Board of Aldermen for the confidence shown by once again electing me to serve as President of the Board. I will do my best to live up to their expectations. On behalf of the Board of Aldermen, I thank the Mayor and all City department heads and employees for their dedication to the service of the City of Rutland.

RUTLAND CITY BOARD OF ALDERMEN

Audit Report

Reports of the audits conducted by the City of Rutland and the Rutland City School Department are included in the City of Rutland Financial Statement which is a separate document and is available from the Office of the City Treasurer.

Report of the City Treasurer

R. J. Graves, City Treasurer

To the Honorable Board of Aldermen and Citizens of the City of Rutland:

The Treasurer's office again has completed another year in fulfilling its duties and responsibilities to the Tax Payers of the City of Rutland. Myself and staff are pleased to submit to you the annual report for the year ending June 30, 1997.

It is without question that our responsibilities are great. We in the Treasurer's office welcome our duties and hope that we have performed them diligently and foremost to the best of our ability for the Tax Payers of the City.

Our duties are widespread in nature from preparing and collecting tax bills, water and sewer rents and providing service to the general public, as well as providing fiscal support of all departments of the City.

Utmost in our duties is the accountability of the Tax Payer's dollars. This office publishes a comprehensive financial report annually under a separate cover. As presented in that report the General Fund of the City as a result of its operations has a Fund Balance or surplus of \$170,107.73. This fund balance is

directly carried over to the next fiscal year to offset what needs to be raised by taxes for that fiscal year.

The City met its debt requirements promptly during Fiscal Year 1997. The City's total Bonded Indebtedness as of June 30, 1997 is \$12,740,600.00. Interest on that debt totals \$4,730,908.75.

The City also maintains Water, Sewage Disposal, and Parking Meter Funds in addition to a number of Trust and Agency funds.

The Financial Report will be audited by an independent certified public accounting firm. The audit was designed to meet requirements of the City, State, and the Federal Single Audit Act of 1984 and related OMB Circular A-128.

The preparation of this report and the comprehensive annual financial report on a timely basis was made possible by the dedicated service of the entire staff by the Finance Department which is made up of the Treasurer's office, Data Processing Department, and Purchasing.

Report of the Building Inspector/Zoning Administrator

James P. Simonds

To the Honorable Board of Aldermen and Citizens of the City of Rutland:

I am pleased to submit to you, the annual report of the activities of the Building and Zoning office for the fiscal year ending June 30, 1997.

We were sorry to see the closing of the Wagon Wheel Gift Shop on Woodstock Avenue (corner of Stratton Road) but we wish the Donahue's a happy and well deserved retirement. In it's place and under construction at this time, is a new Stewart's Shop Convenience store and gas station.

Route 7 South is seeing many changes. The new Hannaford Grocery store is about to open and at the entrance, is the newly opened Mac's Convenience store. Both Dart Mini Mart and Cumberland Farms stores are in the process of demolishing their existing structures in order to create a more convenient reconfiguration of their properties.

The Rutland Plaza construction is completed and almost fully occupied. Wal-Mart has settled into their new location and is a welcomed addition to our new downtown. Once again, we have seen store fronts becoming occupied, and shoppers are back downtown, with new restaurants, coffee shops, newstands, and retail shops.

The Eagles building on Center Street, which was devastated by fire this year, has been revitalized, thanks to Victor Miglorie, who saved the building from demolition and preserved a piece of Rutland history.

Construction has begun on the new Multi-Modal Transit Center on West Street, which will give West Street a new face lift as well as provide much needed parking for downtown.

Our progress continues in bringing properties into compliance with City codes. Rutland Habitat for Humanity is revitalizing a multi-family dwelling on Royce Street and returning it to a single family residence. Rutland County Community Land Trust has purchased a multi-family dwelling in this area, and is reducing the number of units.

Our office took in 199 building permits as follows:

Building permits:	Cost of construction
7 new residential construction	\$ 488,000
121 repairs to existing property	978,970
9 new commercial construction	16,491,996
44 repairs to existing commercial property	2,182,424

Also for review and approval:

- 17 Demolition permits
- 53 Sign permits
- 39 Electrical permits
- 22 Variance applications
- 6 Subdivision applications

In closing, I would like to thank the residents of the City of Rutland for their patience in dealing with complaints, understanding of city ordinances and codes, and support in trying to bring properties into compliance. Thanks go to Mayor Wennberg, the Board of Alderman and the Zoning Board of Adjustment for working cooperatively with our office for the betterment of Rutland City, and to the "Legal Eagles," Chris Sullivan and Henry Brislin for their close association with our office, providing us with legal guidance and support in upholding city ordinances.

Report of the Zoning Board of Adjustment

Stephanie Lorentz, Chairperson

To the Honorable Board of Aldermen and Citizens of the City of Rutland:

The Zoning Board of Adjustment is pleased to submit the annual report for fiscal year 1996-1997.

Members: Stephanie Lorentz, Chairperson, Dean Lawes, J. Donald Cross, Andrea R. Hubbard MacLauchlan, Al Trepanier, Martha Hogan Henry, and Gregory Thayer. The Zoning Board of Adjustment wishes to remember Dr. J. Malcome MacDonald, Member Emeritus, who passed away this year. Dr. MacDonald serving the Zoning Board with his compassion, understanding, knowledge and dignity, for over 30 years. His passing is indeed, a very sad loss to the City of Rutland.

We held 22 public hearings for variance requests. Hearings are scheduled for the 1st

and 3rd Wednesdays of the month, and are held in Aldermanic Chambers. The hearings are warned to give advance notice to the public so they may participate in the hearing. Our obligation is to determine whether or not the statutory five criteria were satisfied, to investigate discrepancies and interpret the Zoning Ordinance, as written.

The Board wishes to thank the residents of the City of Rutland for their active participation in the public hearing process, Jim Simonds, the Zoning Administrator, Cathy Diana, and the Mayor for their continued support of our efforts.

Report of the Legal Department

Christopher P. Sullivan, City Attorney/Grand Juror

Henry C. Brislin, Assistant City Attorney

To the Aldermen and Citizens of the City of Rutland:

The Legal Office of the City of Rutland has continued in its role as corporation counsel and chief union negotiator. As of last year, this office has again devoted a substantial amount of time involving all aspects of Downtown Development.

Amtrak service to Rutland has been added to the many projects in Downtown with all agreements in place. The railroad tracks will be relocated further west of the Parking Deck and Rutland Shopping Plaza Building to accommodate a new train station. An agreement has been finalized with Net Realty Holding Trust and Central Vermont Public Service Corp. regarding CVPS' decision not to relocate its headquarters in Downtown. Finalizing the Agreement involved negotiations with the State of Vermont and the Railroad on relocating their railroad tracks including obtaining property to accommodate Spruce Street Extension. Both CVPS and Net Realty Holding Trust will transfer property to the City for the train station and for Spruce Street Extension. Further, Net has taken over the expenses for maintenance of the Plaza Parking Lot. CVPS processed payments to the Rutland Redevelopment Authority in the amount of \$75,000 and has contributed approximately \$30,000 to improve the Depot Park and Parking Deck.

The Legal Office completed the City of Rutland's condemnation and ultimate transfer of properties regarding the Multi-Modal Transit Center to the Marble Valley Regional Transit District. The process not only involved the condemnation of approximately twenty-eight properties within that area but also involved difficult issues pertaining to the City's obligation for funding of the parking structure.

This office continued to assist the Board of Aldermen and the Administration on legal issues on a daily basis as well as in regard to the recodification of ordinances. The City enacted and successfully enforced an ordi-

nance which regulates nude dancing within the City and implemented regulations of skateboarding within the Downtown area. Research and advice is provided to the Board, Administration and Committees regarding the potential legal consequences of these ordinances.

The City of Rutland will be providing sewage disposal services for the new Grand Hotel to be built at the Killington Ski Area and the Legal Office has been involved in negotiating contracts with Killington and Alpine Pipeline as well as participation on behalf of the City in the Act 250 process for approval of the construction of Killington's Grand Hotel. An agreement between the City, the State, Federal Government and environmental organizations was reached which provides for a trail and scenic easement for the relocation of the Long Trail and Appalachian Trail. This historic agreement has enabled the interconnection of Killington and Pico. The United States Park Service agreed to pay \$440,000 for the trail and scenic easement.

This office has also been involved with the parking situation downtown.

Further studies are being conducted regarding parking downtown as required by the Act 250 process for the Rutland Plaza. Evidence was presented to the Commission during the Act 250 hearing process and negotiations were conducted with concerned property owners and employees of Downtown to reach an acceptable parking plan. This office continues to provide assistance to the administration regarding parking issues.

Zoning and subdivision enforcement matters continued throughout the year. This office works closely with Jim Simonds on such matters participating in subdivision and zoning appeals and prosecuting zoning and subdivision violations in Court.

Further, we've been working with the Board of Aldermen and Planning Commission updating the Municipal Plan and draft-

ing proposed Zoning Regulations. New Flood Hazard Regulations were drafted by this office and approved by the Board this past year.

Several tax appeals are presently in Court which are also handled by this office.

The City continues to monitor ongoing litigation being handled by outside counsel as well as claims being handled by the Vermont League of Cities and Towns. The most significant matter pending is the insurance coverage dispute between National Union and the City regarding the matter entitled Gallipo v. City of Rutland, et al.

This past year, employees in City Hall decided to Unionize and joined the DPW

Union. Negotiations with this group has been ongoing throughout the year and continues. Further, Fire Department Union negotiations have been ongoing throughout the year. Next year, the City will begin negotiations with both the Police Department Union and full Department of Public Works Union in addition to the ongoing negotiations.

It's been a busy year and the future looks to be just as hectic. It's been a pleasure representing the interests of the City and this office looks forward to doing the same this coming year.

Office of the City Clerk

Rosemary F. Finley, C.M.C., City Clerk

To the Citizens of the City of Rutland:

The following is the report of the office of City Clerk for the year ending June 30, 1997.

LAND RECORDS:

7,797 pages of land records were recorded and microfilmed.

VAULT RESEARCH:

During the year 2,471 people signed into the City Clerk's vault to do research in our land records and vital records.

VITAL RECORDS (Calendar Year 1996):

Births (754 Total):

236 Resident Births

518 Non-resident Births

Deaths (450 Total):

224 Resident Deaths

226 Non-resident Deaths

Marriages (170 Total)

LICENSES:

Licenses issued to date for the current license year are as follows:

- 64 First Class Beverage Licenses
- 33 Second Class Beverage Licenses
- 67 Tobacco Licenses
- 1,156 Dog Licenses
- 1 Bowling Alley
- 2 Circus
- 20 Coin Machine
- 9 Fair Licenses
- 8 Multiple Fair Activities Licenses
- 11 Hotel/Motel/Inn
- 12 Peddler/Solicitor
- 22 Pool Table
- 114 Restaurants and Victualing Establishments
- 1 Rodeo
- 1 Theater
- 1 Transient Merchant

ELECTIONS:

September 10, 1996, Primary Election

Eligible voters: 10,907. Ballots counted:

712 Democratic, 444 Republican, 4 Liberty Union.

November 5, 1996 General Election

Eligible voters: 11,340. Ballots counted: 7,119.

March 4, 1997 Annual City Election

Eligible voters: 11,201. Ballots counted: 4,261.

The following officers were elected:

Mayor:

Jeffrey Wennberg

Treasurer:

Ronald Graves

Assessor:

Barry Keefe

Alderman:

Paul Barbagallo, Barry Beauchamp, John Cassarino, Paul Clifford, Christopher Louras, Robert Stafford

School Commissioner:

Ronald Austin, Judy Bickford, Madeline Sherman, Alton Wilkinson

The following ballot proposals failed:

A City Charter Amendment to create a Student Investment Fund,

A \$3,900,000 bond for a new Police Station and City Hall renovations,

\$9,115 for Bennington-Rutland Opportunity Council

\$30,000 for Rutland Area Community Services

The following proposals were approved by the voters:

Adoption of Municipal Master Plan by Board of Aldermen

Association for Retarded Citizens \$25,900

Marble Valley Regional Transit District \$46,140

Regional Ambulance Service \$109,480

Rutland Area Visiting Nurses and Hospice \$43,000

Rutland County Adult Basic Education \$9,000

Rutland County Women's Network & Shelter \$10,000

One to One, Retired Senior Volunteer Program, Southwestern Vermont Council on Aging and Interage \$36,975

A non-binding referendum approving consideration of a requirement that all City employees be residents of the City.

ORDINANCES:

The following ordinances and amendments were adopted:

- No. 203 Title 17: Health and Welfare
Chapter 1 Health Officer and Board of Health - repealed
Chapter 3 Public Health Nuisances - amended
Chapter 5 Charities and Correction - repealed
Chapter 7 Food Offered for Sale, General Provisions - repealed
Chapter 9 Processing and Sale of Meat - repealed

- No. 211 Title 25: Streets, Highways and Public Places, Chapter 5 Injurious Practices in Streets and Public Places; amend §4464 Skateboards, roller skates, roller skis and play vehicles
- No. 212 Title 31: Zoning and Planning, enact Chapter 6 Interim Flood Hazard Area Management Regulations

Emergency Management Report

Ira L Earle III, Director, Emergency Management

To the Honorable City Council and Citizens of Rutland:

I respectfully submit the Annual Report for the Department of Emergency Management for the fiscal year ending June 30, 1997.

From July of 1996 – June 1997 the Department was called on for many various types of emergencies. There were several general alarm fires with families being displaced and needing help in locating shelter and clothing. The carbon monoxide calls increased significantly. There were many unusual emergencies during this period that gave the department an opportunity to fully use its resources, such as the emergency operations plan. The plan was also activated on several occasions for spills or releases of hazardous materials.

Again, last winter, the Mayor's Emergency Fuel fund was transferred to BROOC, along with matching funds from other sources, for administrative reasons. Cold weather started in early November and did not subside until the middle of April. This fund, through the generous contributions of the area Ecumenical Council and others, was able to help one hundred and six (106) persons and families through the heating season.

During the winter months, snow storms were very steady, not accumulating a lot of snow, but enough to make it miserable. In January we had storms with snow banks sometimes high but not like the six or more feet we had the previous year. On March 6, 1997, we had a large snowstorm, which continued thru Saturday, March 8. During the months of April and May, high water from several days of rain, melting snow and warm weather, threatened some flooding. Although the water was high in several areas with the possibility of evacuation from these areas emanating, evacuation was not needed.

On July 8, 1996, Rutland City experienced a micro burst in the north end of the city and other areas. Electric power was interrupted by high winds and hail knocking down trees and uprooting trunks. Many homes and businesses were without electric services. Once again the police and public work's departments, along with fire and emergency management, were

able to get the incident under control, but not without the help of CVPS, and Vaillancourt Tree Company.

As safety director for the City of Rutland, along with the help of the League of Cities and Towns, several new fitness programs were started, including health and physical agility programs. The goal is to make our coworkers aware of their "health and safety always first."

As many of you are aware, we are in the process of initiating Enhanced 911 better known as E911. Rutland City will be the PASP (Public Service Answering Point) for Rutland City. This involves call taking and dispatching all Fire, Police & Emergency Medical Services (EMS). Among the many details of this program are the training, addressing, and setting up the equipment. The Rutland City Fire Department building will be the new dispatch center. It will be operated twenty-four hours a day by trained tele-communicators. Once online, all calls that are routed to E911, will be answered and dispatched from the new communications center; thus eliminating the middle man. I would like to thank the Mayors

office, Police Commission, Fire Department Headquarters, Regional Ambulance Service, and all the dispatchers from the city police and fire department for their support and cooperation in this project.

This office has worked with the Vermont Emergency Management and the EPA to obtain training for the emergency services agencies. As noted in prior communications, several emergency service schools are held throughout the year for the police, fire and DPW, such as Haz-Mat awareness, CAMEO (computer-aided management of emergency operations), bloodborn pathogens, confined space entry and others. These programs are mandated by federal law. As these classes or courses become more available, this office will continue to help emergency departments in our area in sending personnel, to maintain top grade emergency responders. As director of emergency management, I have attended sev-

eral emergency management schools and seminars throughout the year which are mandatory for the city to maintain EMA status.

As chairman of the Local Emergency Planning Committee, I was able to obtain a Weatherpak station for the newly formed (RERT) Regional Emergency Response Team. This instrument is able to measure wind velocity, wind speed, real-time humidity, and other vital statistic information in case of a Hazardous Materials release or spill.

In conclusion the office of emergency management has worked with other agencies in controlling emergency situations such as spills and releases of hazardous materials, fires, and natural disasters. Some of the agencies involved were CVPS, Red Cross, Salvation Army, BROCC, Tree Companies, GE, and other private companies and petroleum dealers. Thank you for your resources and assistance.

Rutland Fire Department

Gerald T. Lloyd, Chief Engineer

To the Honorable Board of Aldermen and Citizens of the City of Rutland:

I respectfully submit the Annual Report for the City of Rutland Fire Department, for the fiscal year July 1, 1996 through June 30, 1997.

During the past fiscal year, your fire department responded to a total of 676 emergency fire calls, 84 heavy rescue and vehicle extrication calls, 1298 citizen assistance calls, 51 hazardous materials incidents, and 67 carbon monoxide investigations.

The department assisted in the investigation of eight fires, to determine cause and origin of the incidents. Personnel from this department reviewed twenty-three building plans for renovations and new construction of proposed buildings.

Approximately 600 hours were spent maintaining traffic lights and signals, and the fire alarm system. The department conducted 42 electrical inspections, and assisted and supervised with the installation of seven new municipal Gamewell boxes. Officers and other members of this department assisted the Vermont State Department of Labor and Industry, and the City of Rutland Building Inspector, James Simonds, in conducting 148 building inspections, to correct violations of the Life Safety and B.O.C.A. codes.

At the present time the department is working with the Rutland City Emergency Management Director, Ira Earle, and the Vermont State Emergency Management Director, to formulate our annual fire disaster drill, to insure that we maintain our certification, as required by the State of Vermont and the federal government. The coordinated disaster drill is scheduled to take place during the month of April 1998. Our past disaster drills have been extremely successful, and it has provided the Rutland Regional Medical Center and the Regional Ambulance Service, with the ability to exercise their skills necessary for state re-certification.

The City of Rutland Fire Department has taken delivery of a 1997 Sutphen Emergency Fire Vehicle, designated as Engine #4. This vehicle will serve as a front line attack pumper, heavy rescue and lighting plant vehicle. It has provided the department the availability to reduce it's vehicle inventory by three vehicles.

This vehicle is equipped with an on-board computer system, capable of doing in-field evaluation of hazardous materials and other disaster incidents. With this type of information available to the officers of this department while in the field, and not having to rely on information provided from a dispatch area, it should afford them the availability to make quick and prudent decisions involving the safety of firefighters and civilian personnel.

Once again this year, prior to the start of the new school year, inspections were conducted in all of the educational facilities within the city. The fire alarms and other emergency equipment located in the facilities were tested, to insure that they were in proper working order. A minimum of nine fire drills were conducted at each educational facility in the city, to insure that our students were familiar with the existing process, in the event of an emergency at their facility. Our department was cordially welcomed during each inspection, fire drill and test. The members of our department would like to thank the Superintendent of Schools, school principals, teachers and maintenance personnel, who were both cooperative and cordial throughout this process.

Our department responded to four General Alarms during the past fiscal year. The first general alarm took place on July 21, 1996, at 58 Prospect Street, which was caused by an electrical malfunction, that caused a fire in the kitchen and attic areas of this structure. This building has been renovated and now is fully re-occupied. On March 13, 1997, we had a General Alarm at 175 Church Street. The damage to this building was confined to the garage area, which was the room of origin. On March 16, 1997, the department responded to a fully involved structure fire at 135 Dorr Drive. The building was unoccupied at the time of the fire, and there were no injuries to the residents of this dwelling, or members of this department. On May 23, 1997, the department responded to a General Alarm at 68 Pine Street. This was a four unit apartment dwelling, with the fire originating on the ground level

apartment. It was determined that the cause of the fire was a defective gas heater. This building has been sealed and is not inhabited at the present time. Plans for renovation of the fire damage are being considered by the present owner at this time. The department had six, ten man call-back orders for working fires during the past year. No members received any type of serious injuries while performing fire suppression duties, during the past year.

The American Legion Post 31, provided this department with a donation in the amount of \$1,000.00, in the name of the late Chief Alfred H. Koltonski. This generous donation was used to purchase training supplies for our department's Combat Challenge Team, and to purchase training aids for our department's Fire Safety Education Program. Additional money was donated for the Fire Safety Education Program by Ms. Doris Shellmer, Central Vermont Public Service, the Italian Aid Society, Rutland Elks Lodge #345, Rutland Moose Lodge #1122, Rutland VFW Post #648, and Hannaford Brothers.

All regular career Officers and Firefighters presently serving on active duty with this department, have completed the required state training criteria of units one through five. Additionally, six part time firefighters have successfully completed the state certification for interior structural firefighting, as required by the State of Vermont Training Council. This training requires that any career firefighter receive a minimum of 172 hours of training prior to receiving this certification. At the present time, the re-certification process has begun, and it will require that each member of our department receive an additional 24 hours of re-certification training, to maintain their required certifications.

The Giancola Construction Company was awarded the bid for the renovation of the Central Fire Station, to make the necessary modifications, to accommodate the equipment and dispatchers, for the Enhanced 911 System. It is projected that all renovations will be completed by the end of September of this year, and at that time, the emergency dispatch system is scheduled to be installed and operating by late October of 1998.

Mayor Wennberg, members of the Board of Aldermen, members of the Rutland City

Police and Fire Departments, and other agencies, spent many hours of their own time, attending meetings, reviewing plans, and drafting specifications, so that this vital program may be put on-line, to insure the best possible emergency services be provided to the citizens of our community.

Our ongoing fire education and safety programs, under the direction of Capt. Gregorio and Lt. Walsh, was once again provided to all students in grades Pre-K through four, who are enrolled in the Rutland City School System. These programs were developed by the Officers and Firefighters of this department, in an effort to provide a safe home environment, and safe fire procedures to utilize, while attending our school facilities. Approximately 1300 students were visited by these programs. In addition to visiting our local schools, this department provided approximately 110 tours at Central Fire Station, to local school children, students from educational facilities outside of the City of Rutland, and to various adult groups.

Again this year, five members of this department, under the direction of Assistant Chief Lancour, were re-certified in Aircraft 139 Operations, to maintain their active F.A.A. firefighter standards. The City of Rutland Fire Dept., is under contract with the State of Vermont Agency of Transportation, to provide certified firefighters, when aircraft with a passenger capability of more than thirty, land or take off at the state airport in North Clarendon, Vt.

I made the decision to retire, after forty years with the fire service, as of September 1, 1997. I would like to thank the citizens of the City of Rutland, for the opportunity to have served in my capacity as a firefighter, Fire Prevention Officer, and Chief Engineer of the department. I leave with great confidence, that the City of Rutland has been blessed with one of the finest fire departments in New England, staffed by extremely professional officers and dedicated firefighters. I believe that our department's transition, will continue as we head into the twenty-first century.

I wish to thank the members of this department, Mayor Wennberg, members of the City Council, and other department heads, for their cooperation and assistance, provided to us during the past fiscal year.

Planning Commission

John A. Facey, III, Chairman

Jim Pell, Peter Giancola, Kathleen Valente, Carolyn Baker, James Hock, Theodore Robare, Michael Donahue

To the Honorable Board of Aldermen and Citizens of the City of Rutland:

The Planning Commission has had a busy year. As the fiscal year commenced on July 1, 1996, the Planning Commission was just getting underway with the five-year revision of the Rutland City Master Plan required by State Statute. We decided to utilize the services of Matthew Sternberg of the Rutland Redevelopment Authority to get this project done in time. After much work by Mr. Sternberg and the Commission, the Planning Commission approved a draft Master Plan at its meeting on October 2, 1996 and set public hearings for November 6, 1996. On November 6, 1996, the Planning Commission conducted a public hearing on the proposed readoption of the City Master Plan. Many people appeared and spoke about various provisions of the Plan, especially the bypass issue. On November 13, 1996, the Planning Commission held a meeting with the Agency of Transportation on the proposed bypass. The final Plan that they adopted and sent to the Aldermen in November 1996 endorsed the 1,000 foot bypass route from Route 7 south to Route 4 east. The Planning Commission did not endorse the continuation of the bypass from Route 4 east to Route 7 north of the City.

The first major subdivision reviewed by the Planning Commission was that of Chuck Wagonheim and his proposal to subdivide the Great Outdoors' Woodstock Avenue property for purposes of locating an Applebee's Restaurant. As the year went along, the Planning Commission dealt many subdivision applications, both large and small and continued to work on the revision and readoption of the Rutland City Master Plan.

The Planning Commission has two members that sit on the Rutland Redevelopment Authority Architectural Review Committee that reviews all development proposals on the Downtown District. Jack Facey, Ted Robare and Peter Giancola share the duty to sit on the Architectural Review Committee. That Committee was reorganized in late summer, 1996 and now

consists of a seven-member committee (it had been five).

The Planning Commission lost the services of Cathy Diana and, after one interim replacement, has hired Barbara Allen to serve as its secretary. Barbara works with the Rutland Redevelopment Authority and we are happy to have Barbara on board.

The Planning Commission also held public hearings on amendments to the Interim Flood Hazard Area Management Regulations that we approved and sent along to the Board of Alderman in June of 1997. These were important changes to ensure the continued eligibility of Rutland City properties for Federal flood insurance.

At the commencement of the year, our chair was Austin Burbank. Other members were Jim Pell, John Hock, Ted Robare, Michael Donahue, Jack Facey, Kathleen Valente and Carolyn Baker. Austin Burbank resigned after many years of valued service during the year and the Planning Commission members and the City will miss him in this capacity. Jack Facey was elected Chair in September and Peter Giancola and Jill Maynard joined the Board later in the year.

The Planning Commission meets on the first and third Wednesdays of the month at 7:00 P.M. in the Aldermanic Chambers. One of our active Subcommittees is the Draft Zoning Subcommittee, which meets on Tuesdays at noon in the City Attorney's Meeting Room and is working on new zoning regulations for the City. The Subcommittee on Zoning hopes to have a draft of the new Zoning Ordinance to present to the Planning Commission by October 1, 1997.

In closing, the Planning Commission wishes to thank Mayor Jeff Wennberg, the Board of Alderman and City Attorney Christopher P. Sullivan for their advice and assistance and all of the citizens who attended our public hearings and gave us the benefit of their thought and experience.

Health Officer

Pamela J. Petrie, Health Officer

To the Honorable Board of Aldermen and Citizens of the City of Rutland:

I hereby submit the annual report of the Health Officer for the fiscal year ending June 30, 1997.

The Board of Health consists of Robert Beauchamp, R.Ph., Michael Durkin, RN and Gordon B. Smith, M.D. This board acts in a supportive role by assisting and advising the Health Officer in matters regarding public health.

Throughout this past year, both the Health Officer and the Board of Health have been kept fully apprised of the weekly testing of the City water through the cooperation of the water treatment manager. The water remains consistently in compliance with all State and Federal water quality standards.

Once again this past year has been a very busy year with public health nuisance allegations requiring investigation. The disposition of garbage, trash and other debris were the most common allegations. In some instances, Health Orders were necessary, along with the help from other City Departments and the Vermont Department of Health, to abate the worst of these problems.

The disposition of trash is fast becoming a serious problem in our area, which we all

need to give more thought to whether we are a landlord with tenants or a private home owner. It is necessary that we properly dispose of all our household garbage and trash in the correct manner. The placement of household rubbish and trash, either inside or outside in improper containers in an irresponsible manner, invites all sorts of pests into the area that are both unwanted and unhealthy.

Please remember that all rubbish and garbage is to be disposed of in watertight, leakproof and rodent proof containers with tight fitting covers. This refuse is then to be removed at weekly intervals either by yourself or your garbageman and legally and properly disposed of. If we all work together to reach this goal, we can have a cleaner and healthier environment.

On behalf of the Board of Health and myself, I would like to thank Mayor Wennberg, the Board of Aldermen, all City department heads and their personnel for their continued support. In closing, I would again like to thank the many concerned citizens of this City for their assistance, cooperation and support, for without their help, many of the health issues would go unresolved.

City Assessor's Office

Barry J. Keefe, City Assessor

To the Honorable Board of Aldermen and Citizens of the City of Rutland:

I am pleased to submit the annual report of the Assessors Office for fiscal year ending June 30, 1997.

The Grand List at April 1, 1997 totaled \$692,494,400. which reflects a decrease from April 1 1996 of \$4.1 million or one-half of one percent. For the second consecutive year, the Business Personal Property which includes machinery and equipment was the most significant which attributed \$3,084,013 of the drop in the overall Grand List. The real estate in the City dropped \$1,094,959. While there was some new construction during the year, it was not enough to offset demolition and a more active appeal year. Most of the appeals were concerning commercial real estate. The City's commercial tax base is in transition as the Multi-Modal Transit Center, which promises to be a boost to the local economy, has temporarily caused some disruption during construction. Contributing significantly also are sales of some of the downtown center's older building stock to new owners whose plans include renovation and investment in a revitalized downtown. Some of these buildings will require substantial investment to meet building code requirements.

Based on evidence submitted, settlement was reached with several taxpayers in lieu of

protracted legal battles in court where the outcome could be extremely costly to City taxpayers.

This year the Vermont Legislature has passed The Equal Education Opportunity Act of 1997 (Act 60) which will have an impact on property taxation in the State of Vermont and our City.

The implementation of Act 60 will mean change in the way property taxes are calculated, collected and dispersed. It is my intention to work within the framework of the Act to deliver the best assistance to our taxpayers. State and local officials will be working together to disseminate information to taxpayers over the next two years. It is hoped that if one has questions or concerns that our office will be of assistance.

Our office is committed to improving assessment practices and promoting justice and equity in the distribution of the property tax burden. The Assessor's Office has no control over tax rates.

I would like to thank Peg Cillo, the Mayor, Board of Aldermen, and employees of the City who helped this office this past year. Citizens, thanks!

Police Department

Robert R. Holmes, Chief of Police

To the Honorable Board of Aldermen and Citizens of the City of Rutland:

I am pleased to submit the Annual Report of the activities of the Rutland City Police Department for fiscal year ending June 30, 1997.

I wish to extend my sincere appreciation to the members of the Police Commission for their continued support, the members of the Police Department for their hard work and

dedication, Mayor Wennberg and the Board of Aldermen for their faith and confidence, and to all the Citizens of Rutland who have cooperated, assisted, and demonstrated support for the Police Department throughout this past year. Thank You.

Department of Public Works

Warren E. Conner, Commissioner of Public Works

To the Honorable Board of Aldermen and Citizens of the City of Rutland:

I hereby submit the annual report of the activities of the Department of Public Works for Fiscal Year 1996-97.

The Department of Public Works provides a variety of basic services to the Citizens of Rutland. Among them are day to day maintenance of City Streets, Sewer and Water Mains, the Wastewater Treatment Plant, the Water Treatment Plant and the area comprising the City's Watershed. The Department responds to citizen complaints on a daily basis and emergency situations on a 24-hour basis. Citizens are reminded to contact the Police Department if emergency situations arise when the Department's business office is closed.

There have been several changes of supervisory personnel in the past year:

In September of 1996, James B. Ward retired from his position as supervisor of the Wastewater Collection Division. I was busy coloring at my desk in the second grade at Lincoln School when Jim was hired in January of 1953 so I didn't take much notice of it at the time. However, since then he did catch my attention. I've had the pleasure of working with Mr. Ward for about 25 of his 43 years with the DPW. His competence, integrity and sense of fairness earned him the respect of all who dealt with him. We wish a long and happy retirement to a very loyal employee and a true gentleman.

Engineering Technician Peter Kelly very capably filled in as temporary Supervisor of the Wastewater Collection Division until May of 1997 when Paul Julius was transferred from his position as Street Supervisor to fill the job permanently. My sincere thanks to Peter for a

job well done and good luck to Paul in his new position.

Paul Clifford was hired in May to replace Paul Julius as Street Supervisor. Paul had previously worked in this Department in the 1980's. We welcome him back and wish him luck.

January of 1997 saw the retirement of Water Treatment Plant Superintendent, Bernard Congdon. Bernie joined the Department in 1986 and oversaw the Water Treatment Division through an era of some of the biggest changes in Federal and State Regulatory requirements in history. The Slow Sand Filtration Water Treatment Plant was planned, designed and constructed during Bernie's tenure. We wish him well in his retirement.

Mike Garofano was appointed as the new Water Treatment Plant Superintendent upon Mr. Congdon's retirement. Mike had been the Laboratory Director at our Wastewater Treatment Plant for 16 years. He was involved throughout the construction of the new water plant in anticipation of his eventual move. As lab director and a licensed water treatment plant operator, he is familiar with the applicable water regulations and possesses a thorough understanding of the factors affecting water quality. We wish him success in his new position.

A special note of thanks is extended to the Public Works employees, Mayor, Board of Aldermen and Citizens of Rutland who have assisted the department.

The Department of Public Works should and will continue to serve the Citizens of the City of Rutland to the best of its ability.

Engineering

Warren E. Conner, P.E., L.S., Commissioner and City Engineer
Alan Shelvey, P.E., L.S., Assistant City Engineer

The Engineering Division provides engineering and technical services for each division of this Department and for all other Departments within City government.

It compiles and updates records of the City owned utilities and street system and locates and marks out City water and sewer facilities as requested for the benefit of contractors, property owners and others performing work that may impact those utilities.

The Division also reviews technical designs and specifications for city projects let out to bid, and for streets and utilities built by developers that will be taken over by the city upon completion.

Contracts, easements, deeds and other documents required for the completion of various City projects are prepared by this Division in conjunction with the Office of the City Attorney.

The Engineering Division, after studying several options, designed, and prepared the plans, specifications and contract documents for the reconstruction of the Northeast Drive Sewage Pump Station. The original prefabricated metal pump station was installed in the late 1960's. It was nearing the end of its design life and maintenance and operations costs were becoming excessive. It had virtually no emergency storage in case of breakdown, which was becoming more frequent. Recurring problems at the site created disruptions for the neighboring homes, two of which were within 20 feet of the station. The necessity of replacing the pump station provided us with the opportunity to relocate it to another area away from the houses. Relocation also made construction easier by allowing us to continue to operate the old station until the new one

was completed. The new pump station is constructed of concrete, has an emergency back up pump and an emergency storage tank. Construction was completed in November of 1996 by the Belden Company of Rutland.

Among other, smaller projects, the Division designed and prepared the plans, specifications and contract documents for modifications to piping at the Wastewater Treatment Plant in order to allow greater flexibility in the handling of sludge at that facility.

Implementation of the project to update the water meter reading and billing system was begun. With the cooperation, support and assistance of the Treasurer's Office and the Data Processing Department, a Schlumberger electronic meter reading computer system was installed and integrated into our existing billing system. Hand held computers were provided to the meter readers starting July 1. While we fully anticipate the inevitable "glitches" associated with any radical change (especially those involving computers) we are confident that this new system will result in a more efficient meter reading and maintenance program and more accurate billings.

The Engineering Division worked closely with the Office of the City Attorney in preparing the permitting and other documents required for the land transactions necessary to allow the construction of the proposed train station to proceed.

The Division reviewed 198 building permits in conjunction with the Building Inspector's office.

The Engineering Staff consists of Warren Conner, Alan Shelvey, and Peter Kelly who together represent merely 61 years of service to the City.

Streets Division

Paul G. Clifford, Streets Division Manager

I would like to start by saying thank you to the members of the Administration and Public Works Department for the welcome to the "Real World" as I have been told. It has been an eye-opening experience to say the least from sitting as a member of the Board of Alderman for seven years.

I can assure you as taxpayers that I will continue to do my very best, along with the Streets Division Crew members to deliver the service which is expected not only by the Administration but by the People of the City of Rutland as well. Thank you.

Hot Mix Paving Program

The paving of the selected streets totaling over \$257,018.33 was put in place by Pike Industries.

The streets paved or portions of were:

Marolin Acres • Bellevue Avenue • Merrick Street • Rosemary Avenue • North East Drive • Green Knolls Lane • Emeritus

Avenue • Temple Street • Porter Street • Walnut Street • Meadow Lane • Vernon Street • Convent Avenue • Brown Street • Spruce Street • Orchard/Ash Street • Gibson Avenue • Earle Street • Terrill Street • Edgerton Street • High Street • Piedmont Drive • Billings Avenue • Easterly Avenue • Lyman Avenue • Perry/Southern Boulevard • Avenue A • Avenue B • Haywood Avenue • Strong's Avenue • First & James Street • Campbell Road • Alta Terrace • Wal Mart Entrance • Victor Place • Mahoney Avenue • North East Drive • Aiken Place.

Sidewalks were not installed during the fiscal year by the DWP as a result of budget cuts.

Snow and Ice Removal:

The snow removal crews put out an admirable effort on behalf of the Citizens on the City to keep street and sidewalks clean during winter conditions.

Total winter costs were \$200,772.76.

City Forest and City Ornamental Trees

David Richards, City Forester and Arborist

The City Forester and Arborist is in charge of all forestry work including management of the City's ornamental trees and the 4,000 acres of the City forest in the watershed.

The sale of all timber in the Rutland City Municipal Forest is carried out under approved watershed management practices to provide a regulated harvest of timber products and to protect and insure maximum sustained yields of usable water. Timber sales include sawlogs, firewood and pulpwood. Sales are marked out so as to improve the timber stand which remains while providing income for the City. Trees over 8" in diameter at breast height which do not promise to develop into sawtimber quality stems are removed. Large straight trees are left to become more valuable and to provide genetically superior seedlings.

The Stafford Technical Center Forestry/Natural Resources Program continues to use the Rutland City Forest to train students in Forestry and logging techniques.

During the year, students in the program thinned a red pine stand selling the resulting products. They also removed all limbs on the remaining trees for a height of 20 feet to produce clear lumber in the future.

The students also painted all the property lines around the city reservoir property.

There were (2) timber sales sold during the year. The name of the sale, the contractor, and the amount of money to be paid as follows:

- Fisk Road #5 Timber Sale - Shawn Poczubut
- Rutland, Vermont - \$58,445.80
- Pine Hill Park Firewood Sale - Tom Grace
- Proctor, Vermont - \$5,794.00

In addition there are \$42,544.62 in timber sales from previous years which are still active.

There is a large timber sale out for bid which was marked primarily during the fiscal year. It contains 250,000 board feet of sawlog material and 212 cords of wood. The minimum acceptable bid is \$55,149.00 for the sale.

During the fiscal year the city agreed to sell two easements on City Forest land to the National Park Service. The first easement of 284 acres is so the Appalachian Trail can be moved out of Killington Ski Area and onto

City land. The City will no longer be able to have timber sales on the acreage.

The second easement of 1,075.8 acres is called a scenic easement. The city will be able to have timber sales on this area.

The Park Service will pay the City \$440,000.00 for these easements.

This money will be used to try to purchase more land on the watershed for water protection.

Under the City's ornamental tree program, we have tried to maintain the beauty of our City by properly caring for our trees. This includes removal of dead and dying trees, removal of dead limbs, installing metal cables or metal rods to prevent splitting, removing low hanging limbs for street and sidewalk clearance, fertilizing trees and planting new trees.

The City of Rutland received the honor of being named "1996 Tree City USA." To receive the award, a city or town must meet the following criteria:

1. A Tree Commissioner similar Department with legal status which implements an annual work plan to care for and maintain the community's trees.
2. A Tree Ordinance.
3. A Community Forestry program.
4. An Arbor Day Observance or proclamation.

In addition to working on City Watershed, the Stafford Technical Center's Forestry Program helps with the City's ornamental trees:

1. Most of the maintenance work at the City Tree Nursery is done by the students.
2. They plant trees along streets in the City.
3. They also do some tree maintenance along City streets.

We planted very few trees during the fiscal year. The reason for this being the Board of Aldermen did not provide any money for tree planting.

In spite of this we did manage to plant 16 trees.

(a) 10 trees were planted in Main Street Park from a federal grant funded by the State of Vermont and money from the Mayor's Contingency Fund.

(b) 6 trees were planted on Jackson Avenue by the Rutland Garden Club and the City Forester. The Garden Club paid for the trees.

Water Distribution Division

John Havens, Water Distribution Manager

The Water Division provided installation, maintenance and emergency repair services to the City over the past year that included:

- 5 new domestic taps
- 1 - 4" sprinkler for the Dodge House - 95 Crescent Street
- 1 - 8" tap for the new Hannaford Supermarket
- 1 - 2" tap for NYNEX Block on West Street
- 1 - 2" & 1" tap for Applebee's Restaurant & Great Outdoors Mountain Climbing Center
- 6 - House service relays
- 7 - Disconnects on West Street for Route 4 Project
- 2 - Disconnects on Evelyn Street
- 1 - Disconnect on Union Street
- Installed 289 feet of 6" ductile iron on Lincoln Avenue from Field Avenue South to replace section of old (1905) 4". Three (3) 6" valves and 1 new hydrant were installed and seven (7) house services were transferred.
- Installed 216 feet of 8" ductile iron pipe & one (1) 8" valve on Dorr Drive from #286 Dorr Drive South to Campbell Road to service new house in Rutland Town.
- Installed 552 feet of 8" ductile iron & 16 feet of 6" ductile iron and one (1) 8" valve along with two (2) 6" valves & 1 new hydrant on Meadow Street from River Street to Convent Avenue to replace old 1883 - 3" water main & transferred four (4) domestic services.
- Oversaw and assisted in the installation of 630 feet of 8" ductile iron main on School Street from Meadow to Forest to replace old 3" main during storm sewer project through the Weston Company.
- Repaired fourteen (14) water leaks, two (2) of which were on Route 7 - South Main Street, one (1) by West Street and one (1) under the railroad tracks by Park Street.
- Replace 20 old hydrants, of which 18 were approximately 100 years old with 2-2¹/₂" nozzle type without pumper nozzles, with new Mueller Hydrants with pumpers. There are still about 32 old 2 nozzle hydrants left, but there are plans to replace each within the next two years.
- Replaced 23 curb boxes that were bent or broken.
- Replaced 1 6" main line valve on the corner of Forest Street & Convent Avenue.
- Performed three (3) new hydrant flow tests for various sprinkler companies.

I would like to thank the Water Division personnel:

M. Denno

H. Hall

L. Hall

D. Roberts

G. Rogers

for their time and effort in working under some very adverse weather conditions during this past fiscal year.

Water Meter Division

Robert Harvey, Water Meter Supervisor

Meter Division:

<i>Supervisor:</i>	<i>Meter Readers & Maintenance</i>
Bob Harvey	Bruce Taylor
<i>Records Clerk:</i>	Jim Lawrence
Tom Crosby	William Franzoni

There are approximately 5,450 water meters to be read each quarter. Customer complaints of high billings are investigated on an as-received basis. Meter replacements are made as necessary. Special readings for real estate closings, water turn offs, and associated record keeping are also the responsibility of this Division. In addition to their duties, the meter crew assists the other Public Works Divisions in emergency situations such as water leak repair and snow removal.

There were 97 water turn off/on permits for inside repairs, etc.

The Meter Division is in the process of replacing all the existing meters with new electronic "touchpad" type meters. With the addition of Bill Franzoni, we now have a three

person field crew. Each quarter two of the men read meters while one installs the new meters and handles other special appointments. We anticipate that it will take five years to complete the installation of all the new meters.

In June, the Division completed training in the use of the new hand-held computers that will be used to collect the meter readings starting in the billing quarter beginning July 1st. All meter readings will be entered into the hand-helds, either automatically (with the new meters) or manually (with the old meters).

I would like to thank the employees in the Meter Division for their support and dedication during this past year. Their positive attitude and professionalism kept the Division running smoothly while switching to the new system.

I would also like to thank Joan Pluta from the DPW main office and Alan Shelvey from the Engineering Division for their work on setting up the new metering system.

Water Treatment Division

Mike Garofano, Water Treatment Manager

Scott Taggart, Assistant Water Treatment Manager

The City of Rutland's Slow Sand Water Filtration Facility has now completed one year of operation. The facility has operated more efficiently than the engineers had predicted, which has resulted in lowering the amount of chlorine added to the water for disinfection.

During this past year, we completed a new garage in which our emergency pump is now permanently housed ready for use if the need arises. It was completed with the help of the Water Distribution Division, the Sewer

Collection Division, and the Equipment Maintenance.

This last year there was a total of 941,509,400 gallons of water treated for use for the city; approximately 2,579,478 gallons for an average daily use. The water is treated with chlorine for disinfection, hydrofluosilicic acid (fluoride), and zinc-orthophosphate for corrosion control.

This division would like to thank Bernard Congdon for all of his years of service.

Wastewater Treatment Division

G. Lewis Hotaling, Chief Operator

David P. O'Neill, Laboratory Director

Over the past year the Wastewater Treatment Facility recycled a total of 1,994,610,000 gallons of water.

The following chemicals were used to aid in the treatment process:

Sodium Aluminate -
for phosphorus removal 59,161 gallons

Sodium Hypochlorite -
for disinfection 42,549 gallons

Sodium Bi-sulfite -
for de-chlorination 21,094 gallons

The Treatment Plant consumed 1,558,000 kilowatt hours of electricity.

Materials removed from the waste stream include:

Grit, Sand and Gravel 93.5 cu. yds.

Raw Sludge 6,595,910 gallons

Secondary Sludge 18,186,000 gallons

3,114 cubic yards of digested sludge cake was produced and sent to a Vermont landfill.

This facility operated within the conditions of the discharge permit throughout the year.

In addition to operational activities, preventative maintenance and equipment repair or replacement are the major activities that take place at the Treatment Plant. Some of the larger tasks that were accomplished this year include:

Cleaning and inspection of Digester #1.

Replacement of the Motor Controllers for Sludge Return Pump #3 and Blower #2.

Replacement and relocation of the Northeast Drive pump station.

Complete bearing, drive gear and steering control replacement on Belt Filter Press #1.

We extend our sincere appreciation for the assistance and cooperation extended to us by the other divisions in the DPW, the Mayor, Commissioner and the Board of Aldermen.

Wastewater Collection Branch

Paul Julius, Wastewater Collection Manager

The Wastewater Collection Branch has completed the following work for the fiscal year 1996-1997 with the following employees:

Sewer Specialists:

Steve Davine
Bradley Frederick
Robert Tyler, Sr.
Fred Wood

Backhoe Operators:

Thomas Brown
William Santwire

The Wastewater Collection Division maintains and cleans the City sewer system. Basins are cleaned with a Vaccon. The Division also responds to sewer complaints and emergency situations.

The Wastewater Collection Branch also works with the other divisions on snow removal and sanding and salting streets.

Basins repaired 5
Total footage of pipe 18'

Basins replaced 24
Total footage of pipe 16'

Repairs to sanitary mains &
services 21
Total footage of pipe 668'

Repairs to storm sewers 5
Total footage of pipe 409'

Repairs manholes 22

Replace manholes 10
Total footage of pipe 83'

Respond to sewer problems 61

Rutland Recreation & Parks Department

Leif E. Dahlin, Superintendent

To the Honorable City Council and Citizens of Rutland

My third year in Rutland is yet another year that I will never forget! The single most significant occurrence in the Recreation and Parks Department is the major improvement made to Giorgetti Rink this past fall. Thanks to Mrs. Giorgetti and the Estate of the late Mr. John Giorgetti we were able to provide ice that was second to none. While mother nature did not totally cooperate with respect to weather conditions, the ice we did have was quality ice. This allowed us to provide skating opportunities that had not been possible in previous years. At Giorgetti Rink we are now able to provide ice for speed skaters, hockey, figure skating, school groups and improve public skating.

We have occupied the Dana Recreation Center for two years. We have program space that is more functional and has allowed us to continue to provide a level of service that I hope the City residents are happy with. While in the interim this facility is serving the City well, we cannot become complacent with the idea that Dana is our permanent home. To do that, would be a disservice to the community.

A new program "Adopt-A-Park" has been initiated as part of our master plan. The goal of this endeavor is to have businesses, service clubs and organizations as well as individuals help by renovating the City's various parks. We have a great need that our property tax burden simply cannot remedy. We need the community to help continue to make our parks a place of pride and beauty.

Partnerships have become an integral part of our operation. Rather than duplicate, we seek to find ways to compliment and supple-

ment other groups and organizations, in turn they do the same for the Recreation and Parks Department. The synergy of these partnerships make it all worth it!

We are here to serve you to the best of our ability. Know that our door is open to you to come in and share concerns, make suggestions or get involved. You are the Recreation and Parks Department. So to speak, you are the chairman of the Board and we are here to serve you to the best of our ability given the resources available to us. This does not mean we can do everything you would like. There are limitations.

Volunteers are perhaps the single most important ingredient to the current and future success of your Department. Without volunteers, this Department could not survive! Thanks goes to all of our youth coaches and other volunteers in the baseball, soccer, basketball, football, swim team, Halloween parade, special events and every other special endeavor where a volunteer has been involved. Sponsors additionally make a program so much more successful. Fearful I might miss a sponsor, I dare not list every business and individual who have financially contributed to our programs and special events. Thank you each and every sponsor. Service clubs are the epitome of community spirit. Thank you each and every service club. I believe just about every club in Rutland has been involved with this Department. You truly make a difference in so many positive ways. What you ultimately do is make the quality of life in Rutland that much better for everyone who lives here.

FACILITIES

Dana Recreation Center

39 East Center St.

Phone 773-1822

Department Offices, Meeting Rooms, and Gymnasium.

Board of School Commissioners

Dr. Michael R. Dick, President, Board of School Commissioners

Mr. David S. Wolk, Superintendent of Schools

To the Citizens of the City of Rutland:

It is a pleasure to provide this report to Rutland's citizens regarding the status of the city school system.

We begin the 1997-98 school year with unbridled enthusiasm for our mutual success over the next few years. Our theme is that of Great Expectations, as outlined below.

The school district reorganization of buildings has been completed in an effort to provide the most efficient and cost effective delivery of education. Northeast and Northwest Schools continue to serve approximately 300 students from Kindergarten through Second Grade. Our Intermediate School, located at the former Rutland High School site on Library Avenue, serves approximately 800 students Grades 3-6. Our middle school remains at Library Avenue, serving approximately 400 students in Grades 7 and 8 and our enrollment continues to increase at the new Rutland High School campus on Stratton Road and Woodstock Avenue, where we currently have well over 930 students in attendance along with well over 230 students in a full time program at the Stafford Technical Center and over 1000 adults in our Adult Education program, the largest in Vermont.

The number of tuition students from Rutland Town, Mendon, Chittenden and Middletown Springs continues to increase. When I came to Rutland High School in July of 1993 there were 153 tuition students. We now have approximately 229, an increase of close to 50%. New programs, including an increase in our Advanced Placement and Honors Courses at Rutland High School, have contributed to the increasing attractiveness of Rutland High School as the most popular school of choice for parents and students in the tuition-paying towns.

Our goal is to continue to work cooperatively with the municipal side of city government, pursuing every possible way to create cost savings and enhanced collaboration. We continue to lease the former Dana School to the city Recreation Department as part of a three year program, providing relief to that department and

to city taxpayers. We have developed a wonderful relationship with the department and its Superintendent, Mr. Leif Dahlin, keeping in mind that all of the schools are available for Recreation Department programs and services. Other communities would be envious of the cooperative partnership we have formed between our school and recreation departments.

Furthermore, we sought and received a Community Partnership Grant for the second year of our Youth Services Center and for training for school and municipal officials to assist at-risk youth and to provide increased recreational and cultural opportunities for area teens. The Youth Services Center, with over 500 members, is located at the former Southeast School with late afternoon and early evening hours in a very well supervised environment. We also have developed the new SUCCESS Program which serves students who have had difficulties in their adaptation to a traditional school environment. This program combines academics, work and community service in a way that better meets the needs of these students, and also ensures that all of our schools maintain a safe, orderly, disciplined environment. The SUCCESS school is a model for the state, serving approximately 50 students.

Our Assistant Superintendent Mary Moran, has improved curriculum, assessment and professional development. Moreover, she has assisted us in our continuing efforts to secure private foundation support and federal and state grants to supplement our programs and services in Rutland City.

In the past year, we have brought in well over \$200,000.00 in support to the system that would not otherwise have been available had we not focused on grant acquisition. Our plan is to increase upon that figure for the benefit of city taxpayers in the future. Although our enrollment has increased significantly over the past few years, we have not hired additional administrators in the Rutland City School system.

What follows is an explanation of current practices and future directions for Rutland City Public Schools. We invite you to join us as we provide the most cost effective, quality education possible for Rutland City students and our large adult population.

GREAT EXPECTATIONS

We need to raise the bar

If the Rutland City Public Schools are to provide the best quality education at the most affordable cost, then we need to raise the bar. We must establish Great Expectations for learning and teaching. We must promote the highest possible performance standards for educators and others who contribute to the education and welfare of our children, and we must demand the highest possible performance standards for intellectual growth and behavioral expectations for our students.

There is an undeniable truism which has been eternally proven by a wealth of educational research, and more importantly by plain old common sense known to parents and teachers alike, and that is this: the behavior and achievement of young people rise to the level of expectations of adults. Great expectations lead to great achievements. You know this to be true with your own children, and it is also true for all of the approximately 3000 students in the Rutland City Public Schools who have been entrusted to our care.

A new addition to the City Report this year is the attached "Report Card" on student achievement. We review these results, share them with parents, and seek to improve our educational programs. We think that the Report Card is important and we will continue to publish our results.

Treating all children as if they are our own

Our promise to the Rutland community is one you can always depend on and one you should always remember: we will treat all of the children in the Rutland schools as if they were our own.

It is because of that pledge that we will work tirelessly to maintain a safe, orderly, disciplined environment in all of our schools, the only climate conducive to learning and teaching. We will not tolerate any disrespectful or disruptive behavior among our students, or

for that matter among the parents of our students. Mutual respect for persons and property must characterize all of our interactions in and out of school. This must be the philosophy and the practice in the Rutland City Public Schools. School employees who do not believe that will not work here.

Parents and their children will continue to be reminded that in the Rutland schools we treat each other with respect and dignity, but we will not tolerate the very small minority who do not display such acceptable standards of behavior and we will remove those individuals from our classrooms.

Beyond buildings

We have witnessed a masterful and successful reorganization of the public schools in Rutland over the past few years. We are proud of our new high school and the renovated intermediate school, knowing at the same time that we need to attend to the maintenance and renovation needs at the primary schools and at the middle school, where the interior was painted this summer.

But since there is much more to a school than a building, our major focus over the next few years will be on what may be less visible but more important to taxpayers and to the community: developing a top-notch K-12 educational program of the highest quality that is second to none in the United States. Rutland's children deserve it.

We need to lend more credence to the high school diploma. Rutland High School boasts the highest graduation requirements in Vermont, not to mention the lowest dropout rate. But increasingly we hear from the business community and the public in this country that high school graduates are not adequately prepared for the work force and that some graduates lack the basic skills for even entry level positions.

Our CAP (Curriculum, Assessment, Professional Development) initiative is focused on making that diploma more meaningful. As part of a larger, district-wide effort, various committees will continue their work on developing graduation standards in each learning area, essentially answering this question: what do our graduates need to know and be able to do to be successful as they enter college, careers or the military?

These standards, another aspect of our community's effort to "raise the bar," have been developed in a format which provides for the allocation of skill acquisition to meet the standards. Exit criteria have been developed at grades 3 and 7 to help students reach the standards and to correlate with our K-3, 4-7 and 8-12 segments designed to bridge our buildings and enhance communication and coordination among them.

Moreover, we recognize that all students deserve special education. This includes those students whose academic ability and motivation merit special challenges from the schools. We have an honors and Advanced Placement program at Rutland High which is one of the most challenging in Vermont, but we also need to continue to focus our efforts on those students in Kindergarten through eighth grade who deserve attention to their special academic needs.

This year we have expanded our foreign language offerings in the Middle School, where students, unlike any other at that level in the area, now have a choice of French or Spanish courses prior to high school.

This is not easy work. If so, it would have been accomplished already, here or elsewhere. Instead, we have our eyes on the prize, developing an academic program with a K-12 interdisciplinary sequence, matching this new curriculum articulation with a credible assessment program that really measures results, and providing a professional development component that assists educators as we make these changes.

We are surrogate parents

The work of schools and educators has changed dramatically over the past few years. Our culture is radically different from that which informed schooling when we were kids. The impact of the media, with openly accessible late afternoon or early evening television shows which would have been rated for adult viewers only if they were shown in theaters, has been overwhelming in forcing young people to grow up before they are really ready. Furthermore, traditional safe havens for children (supportive homes, extended families, caring neighborhoods, among others) are no longer as available to many needy children.

Schools and educators have been asked to fill this void and consequently have become "surrogate parents" for a growing number of

youngsters whose parents either do not care or are not there.

We have accepted this responsibility, well beyond the traditional academic mission of schools, by offering a myriad of enhanced opportunities for young people (new breakfast and lunch programs, preschool options, alternative educational programs, increased after school activities, expanded counseling and health services) and by continuing to work with the community to develop positive partnerships with other organizations to meet the changing needs of kids in the 1990s.

The new SUCCESS program, the new Youth Services Center and improvements in our delivery of health and counseling services are testimony to this expanded mission. We have expanded after school opportunities for all students at all grade levels, broadening our partnerships with city recreation, arts and library programs and expanding our technological partnerships with Vermont Interactive Television, Rutland Regional Community Television and others. Furthermore, expanded mentoring connections between our older and younger students, facilitated by the Youth Services Center, helps to fill the void. Our expanded volunteer programs in all schools have been very successful.

We need to expand our non-athletic and intramural opportunities in order to guarantee that all students have access to activities outside the classroom. Furthermore, we need to fully develop our community service program so that all graduates of Rutland High School will have performed some form of service project for the community that supports their schools.

Organizing Ourselves to Reach our Great Expectations

How can we pull together and organize all of our initiatives, and how will we know that we are successful?

The school improvement process and Standards for Accreditation of the New England Association of Schools and Colleges (NEASC) have proven successful for years as a way for individual secondary schools to conduct a comprehensive evaluation for the purpose of institutional accreditation. Our high school and middle school are currently accredited and come up for the ten year re-accreditation review process in the Spring of

1998. Several years ago the NEASC established a new Commission on Public Elementary Schools which mirrors the standards and process utilized by the Secondary School Commission to evaluate and accredit 7-12 schools.

Since we are pursuing K-12 school improvements we have initiated the evaluation/accreditation process for our three elementary schools as well. We embarked upon this school improvement process last year. All of our schools will be scheduled to complete substantial self-studies in preparation for visiting team reviews in the Spring of 1998, after which there is a continuing need for follow-up to the team's recommendations. This is a cost-effective way to better organize our progress and to pursue a different level of quality control.

No other Vermont elementary school is currently accredited, although over 200 New England elementary schools are accredited. It takes a lot of work to conduct a thorough and comprehensive self-study, but by scheduling a common timeline for all of our schools we can consolidate our efforts.

There are 48 Standards for Accreditation in nine categories (philosophy; school and community; curriculum and instruction; student support programs; monitoring and assessment of student progress; library/learning media; faculty, staff and administration; school climate; and facilities and related services) against which we will be measured. These include the important elements of schooling which will offer the schools and

Rutland a clear and comprehensive school improvement model, with short-range and long-term goals.

The pursuit of school accreditation for all of our schools will help us to raise the bar to meet our Great Expectations for success, providing the highest quality education for Rutland's young people as well as the enhanced level of accountability the taxpayers and community deserve.

1997 Vermont Business Roundtable Medallion Award

Living testimony to the excellent work of our staff is the very special *Medallion Award*, bestowed upon Rutland High School in 1997 by the *Vermont Business Roundtable*. One school in Vermont is chosen each year. Rutland High was selected for its Jan Plan program and other educational improvements at the school. We are exceedingly proud of the staff and students in all of our schools. Rutland City continues to be recognized for high quality education.

Finally, we believe that some form of public school choice is not only desirable but inevitable as we prepare our students and schools for the 21st century. When that becomes a reality, let us ensure that all of Rutland's schools continue to be the schools of choice.

We look forward to working with you, the staff and the students in the Rutland schools as we provide the best possible education for our community.

RUTLAND CITY PUBLIC SCHOOLS "REPORT CARD"

Introduction

There are many methods to evaluate the quality of schools. These include both objective and subjective measures in areas including: the quality and academic preparation of faculty, administration and staff members, community support and involvement in the schools, curriculum and instructional programs, assessment of student progress, student support services, library/media services, positive school climate, facilities and other related services.

The New England Association of Schools & Colleges (NEASC) provides a nationally rec-

ognized comprehensive evaluation/accreditation process that allows schools to be measured against an agreed upon set of standards that are indicators of school quality and success. All six Rutland City Schools are taking part in this rigorous process of self-study, reflection and evaluation in preparation for the arrival, in March of 1998, of visiting teams of professional educators who will assess each school to determine the degree to which we are meeting the Standards of Accreditation.

One of the most important Standards of Accreditation is the "Assessment of Student Progress Standard" in which we are asked to measure both individual and school performance. There are many ways to measure and report student progress on a day to day basis. Teacher observation, reports, tests, projects, essays, oral reports, work samples and portfolios are but a few examples. In addition, it is important to have the information that external, standardized tests can provide. Such assessments include the PSAT, SAT I, SAT II and the Advanced Placement Exams administered by the College Board as well as nationally developed norm-referenced and standards-based tests.

The results of the following two new assessment programs allow the Rutland City Public Schools to provide the first "Report Card" to the citizens of Rutland.

Students in the Rutland City Public schools took part in two major assessment programs in the Spring of 1997, the **Terra Nova Multiple Assessments** and the **New Standards Language Arts Reference Examinations**. There are several important purposes of these assessment

programs. The primary one, of course, is to help individual students to learn, grow and improve their school performance over time. In addition, a varied and comprehensive assessment plan seeks to support the evaluation of programs, the revision and improvement of curriculum and instructional methods, the development of comprehensive professional development and the selection of new texts and other instructional materials.

The **Terra Nova Multiple Assessments** are norm-referenced tests. As such, they are designed to compare the performance of an individual student or group to another student or group by distribution performance across a normal curve. If a student is at the 66th percentile, this means that the student performed better than 66% of the students in the national group. The results of the Terra Nova tests indicate where our students stand in relation to over 700,000 students who took these tests nation-wide. Since this is the first year that the Terra Nova program was used in the Rutland City Schools, the results will provide a baseline from which to measure student and school performance and progress over time.

TERRA NOVA	Reading	Language	Math	Science	Social Studies
Grade 3:	64.5%	63.5%	61.3%	55.2%	58.0%
Grade 5:	74.1%	57.7%	59.3%	65.0%	69.5%
Grade 7:	64.4%	59.3%	59.2%	57.3%	61.4%
Grade 9:	67.0%	68.5%	66.0%	66.5%	70.0%

The **New Standards Language Arts Reference Examinations** are standards-based tests which describe student performance against a set of defined standards. Results are reported by proficiency levels which represent the degree to which the student has attained the standard. In the New Standards tests, these proficiency levels are: Achieved the Standard with Honors, Achieved the

Standard, Nearly Achieved the Standard, Below the Standard and Little Evidence of Achievement. Rutland City and Vermont results are shown on the following chart. They indicate how well students in grades 4 and 8 are achieving the standards and compares these figures to the approximately 95% of students in Vermont who took these tests last spring.

NEW STANDARDS	Reading: Basic Understanding		Reading: Analysis & Interpretation		Writing		Conventions: Usage, Spelling and Punctuation	
Grade 8:	District/State		District/State		District/State		District/State	
Achieved Standards With Honors	13%	6%	15%	7%	10%	7%	4%	4%
Achieved the Standard	64%	67%	58%	55%	70%	66%	73%	72%
Nearly Achieved the Standard	18%	18%	18%	24%	18%	23%	23%	19%
Below the Standard	5%	8%	10%	14%	3%	4%	1%	4%
Little Evidence of Achievement	0%	1%	0%	1%	0%	0%	0%	0%
Grade 4:	District/State		District/State		District/State		District/State	
Achieved Standards With Honors	0%	1%	0%	1%	1%	1%	0%	2%
Achieved the Standard	60%	58%	40%	43%	46%	48%	47%	48%
Nearly Achieved the Standard	29%	30%	41%	38%	30%	31%	33%	32%
Below the Standard	11%	11%	18%	17%	23%	19%	19%	17%

RUTLAND SCHOOL DEPARTMENT

In accordance with Rutland City Board of Education Policies, a free appropriate public education for all handicapped children is guaranteed. If your child is handicapped, or you know of a handicapped school-age child who is not currently being served, please contact the Support Services Office at 773-1917.

Marble Valley Regional Transit District, "The Bus"

Lawrence A. Dreier, Administrator

Samuel J. Gorruso, City Representative

Marble Valley Regional Transit District (MVRTD), generally known as "The Bus" is entering into its 22nd year of service to the residents of the greater Rutland area. MVRTD is the largest non-urban public transportation system in the State of Vermont and as such provides transportation to the general public throughout Rutland County, as well as to Social and Human Service Agencies, schools, resort community and area businesses.

MVRTD provides an enhanced level of self-sufficiency for the elderly, disabled, and transportation disadvantaged who rely on public transportation. MVRTD also serves a growing population who is committed to the environmental benefits of public transit use. MVRTD has become a valued asset to the communities it serves. System ridership, more than 620,000 rides annually, continues to rise substantially. Since the initiation of "fare free" in Rutland City fixed route ridership has increased over 250%. MVRTD's fleet of 37 vehicles are all lift equipped and fully accessible.

Through its operation of the Rutland County portion of the Vermont Rideshare program, MVRTD has "saved" over 215,000 vehicle miles during the last 12 months by providing car pool options. Of the over 12,000 car pool trips arranged this year, 70% brought commuters into the City of Rutland to work.

MVRTD's transportation service to eligible Medicaid and Reach-Up recipients continues to provide approximately 30,000 rides this year, maintaining MVRTD's status as the second largest Medicaid transportation provider in the State of Vermont.

Complementary paratransit services are available for those individuals whose disability prevents the use of fixed route service.

MVRTD takes great pride in aiding in Rutland's economic growth. This is graphically marked by its effort in bringing a \$15,000,000 Multi-Modal Transit Center to Rutland. In

June 1997, after four and one half years of planning and engineering, Granger Northern, Inc. was awarded the construction contract for Rutland's Multi-Modal Transit Center (MMTC). This transit hub will improve the quality of life and economic vitality of Rutland and all its residents and visitors to the region. The MMTC will provide a state of the art facility with seamless transportation linkages for all citizens. This initiative will provide Rutland and the region with a transit hub that will contribute much needed downtown parking, access to interstate bus and rail service, park and ride, continue the expansion of local bus transportation and fulfill a requirement of the Act 250 permit process for the Rutland Plaza. By fall of 1997 the outside precast concrete shell should be completed and it is estimated that the transit center will open for business in December 1998.

In times of uncertain and expensive energy supplies, environmental issues, traffic congestion, and high costs of road construction, public transit is becoming increasingly more important. We appreciate the financial and moral support of the elected officials and taxpayers of the municipalities that guarantee Marble Valley Regional Transit District's continued success. To find out more about MVRTD's services and see the progress of Rutland's Multi-Modal Transit Center, access MVRTD's web page at <http://www.thebus.com> on the Internet.

Rutland Free Library Association, Inc.

Paula J. Baker, Director

To the Honorable Board of Aldermen, Mayor and Citizens of Rutland:

Amidst the daily activities of story hours, book discussion groups, reference questions, business research, student assignments, class visits, lectures and demonstrations, a quiet revolution is taking place both here at Rutland Free Library and in libraries across the nation. This revolution, which seems not so quiet at times, with clacking keyboards, beeping monitors, and US Supreme Court arguments, has to do with a profoundly new avenue to information, and, ultimately, to the thoughts of those around us. It is a revolution which challenges every one of us, from the librarian whose known work world is turned upside down, to those without keyboard skills, from those who sought and trusted carefully researched books, to those who have not yet developed the skills needed to evaluate the plethora of words pulsating in front of them on graphic-crammed screens.

Whether one likes the changes coming or not, the revolution in access to information is upon us, demanding something akin to a high-wire balancing act for the staff and board of the library. The library's mission statement recognizes that people learn during all stages of their lives and states that the library *"is committed to providing diversity of resources and services to assist people of all ages on that journey."* In keeping with this mission the board and staff concentrated on two very important and very different projects this year.

The first was the installation of two Internet terminals and a printer for first-come-first-served access to the world wide web without charges or fees, all hours the library is open. Daily the librarians help people of all ages and skill levels get started on their journey around the web. The second was the undertaking of our first, annual fundraising campaign for the purchase of books. Despite the help of the Nella Grimm Fox funds, available dollars for books have fallen far short of demand, as prices have risen as much as 440% since the fund was established 18 years ago. Both projects were successful: the Internet stations are in constant use, with former initiates

training their peers and friends; and the financial campaign for a healthier book budget came within \$700 of its \$10,000 goal, insuring that books will remain a vital part of the library's offerings.

Programming efforts are another way the library works on its mission: we offered Internet training for families, book discussions, signing workshops, tours, story hours, a performing arts series for children, and hosted a variety of community events like Rutland Reads!, a writer's group, Mother Goose coalition, and state hearings on roads and water among many others.

We also adopted a confidentiality policy, an electronic resources policy, and a reference policy, rearranged the preschool children's room and selected about 1800 books from the regional library collection when it closed in December.

Yes, the face of the library as we know it is changing; the questions from researchers are more complex and expectations of a solid return are higher, but the face of this public library is still recognizable, books and information delivered by caring staff into the hands of people who need them.

Over 160,106 people used the library this year; the number of library card holders increased to 14,564; the Fox Room was used 347 times for library programs and by clubs and organizations, with attendance totals of 7,992 people coming to a program. The number of books circulated was 186,875, an average of 3,590 each week.

The library is a private non-profit corporation supported in large part by taxes from the communities of Rutland City, Rutland Town, Mendon, Ira and Tinmouth. Trustees from these communities represent the concerns of the supporting towns. Daily operations are maintained by a hard-working staff, who have served an average of 11.3 years at the library and by 21 volunteers who contributed 2,173 hours of service last year. All of these efforts are further supported by and extended with the help of the Friends of the Rutland Free Library.

Rutland Area Visiting Nurse Association & Hospice

Ronald J. Cioffi, Executive Director
Christopher P. Sullivan, President,
Board of Directors

1946-1997

To the Honorable Mayor, Board of Aldermen and Citizens of Rutland City:

On behalf of the Board of Directors and staff of the Rutland Area Visiting Nurse Association & Hospice, we would like to thank you for your continued support of RAVNAH. We are deeply appreciative of your generosity and your commitment to our not-for-profit mission of providing the highest quality, necessary home health and hospice services, as well as community health promotion programs.

Our fiftieth year of service to the people of Rutland County was a year of many accomplishments, one of the greatest being the merger of Rutland Area Hospice and Rutland Area Visiting Nurse Association, Inc. This merger resulted in a name change to Rutland Area Visiting Nurse Association & Hospice and a fully integrated hospice program.

We are also pleased to announce the completion of RAVNAH's comprehensive strategic plan. This plan will help us envision our future and develop the procedures and operations necessary to create and achieve that future.

1996 was a year of innovation and cooperation for RAVNAH and this was clearly reflected in our participation in the creation of the VNA Health Systems of Vermont. This network of Vermont's 13 not-for-profit home health agencies will preserve the independence, community governance, high quality, universal access and cost-effectiveness that Vermont deserves and also represents a Vermont solution to the massive changes occurring in health care across the nation.

Another initiative we are pleased to report is the implementation of the Woonsocket Documentation and Outcomes Management program. This program is designed to improve patient care by clearly identifying standardized treatments, instructions, and self-help skills needed according to a patient's diagnosis or disabilities.

We established a Centralized Intake process for referrals, admissions and telephone orders.

This integrated system provides direct access to RAVNAH's services for physicians, payers, patients and families.

Along with a broader perspective, Vermont's not-for-profit home care system maintained the lowest costs in the nation with RAVNAH as one of the lowest cost agencies in the state. This commitment to cost-effective high quality care is a vital part of RAVNAH's mission and we are proud to contribute to the success of home health care in the state of Vermont.

In addition to the above listed highlights of the past year, the Rutland Area Visiting Nurse Association & Hospice provided over 150,000 visits to our 2,300 clients. We saw more people in fewer visits in 1996 as a result of better utilization of services. This was accomplished through the Woonsocket Documentation and Outcomes Management program. Our philosophy is to encourage the independence of patients by teaching clients and their families to care for themselves. These measures were all accomplished without compromising quality.

We are extremely grateful for the city and town allocations, United Way funding, foundation grants and individual and corporate donations which have enabled us to continue offering medically necessary services and community programs to all Rutland City residents, regardless of geographic location or individual ability to pay.

As a community, we are keeping people in their own homes, where they want to be, despite illness or disability. We strive to keep families together and maintain each patient's sense of dignity and independence. In doing this, we advance our mission far beyond our goals of quality care, affordability and universal access and we thank you, the Rutland community, for helping to make this possible.

Rutland Redevelopment Authority

Matthew T. Sternberg, Executive Director

To the Honorable Citizens of the City of Rutland:

Rutland Redevelopment Authority is pleased to present this report on activities during the 1996-97 fiscal year.

The year just ended saw one important redevelopment project come to conclusion and several others start to take shape. Most notably, Wal-Mart opened in the Rutland Shopping Plaza, completing the mix of major anchors for that project. The 78,000 square foot store has been hailed as an example of how to fit "big box" retailers into downtowns. Accomplished with the help of the Mayor, Governor and state Historic Preservation Trust, this opening drew national attention. It also drew thousands of new shoppers downtown.

Next in line are two transportation projects: the Multi-Modal Transit Center, slated to start construction in July 1997, under management of Marble Valley Regional Transit District, and the new Rutland Depot, designed to serve Amtrak, set to start in the Fall of 1997 or Spring of 1998, under management by the Redevelopment Authority.

Rutland Depot comes in response to the successful initiation, in December 1996 of direct Amtrak rail service from New York City. The first season was a notable success, with ridership counts exceeding projection. Here again, Rutland is the model. Visitors have come from as far away as Oregon to see how the Rutland region worked with the State of Vermont and Amtrak to craft an effective marketing program to support passenger service. Thanks go to Rutland Partnership, Rutland Region Chamber of Commerce, Killington, and Okemo for their support of the temporary train station.

Throughout the summer and fall of 1996, RRA worked with the Planning Commission to draft an update of the City Master Plan. Submitted to the Aldermen in December, the

new Master Plan should be adopted by mid 1997.

RRA continues to administer grants on behalf of the Board of Aldermen. In this capacity, the agency directs housing and other community development programs. The major housing project is the on-going rental housing rehabilitation loan program being carried out in the City by Rutland West Neighborhood Housing Service. Originally intending to upgrade 30 rental units, Rutland West has kept the cost per unit so low that they now estimate as many as 50 units may be repaired under the original grant allocation.

Many of these units are located in the "buffer zone" residential areas surrounding downtown. To add more weight to the rehab program, Rutland Region Habitat for Humanity and Rutland County Community Land Trust have agreed to seek our projects in these same buffer zones over the next three years. The objective is to use the combined involvement of the three organizations to stabilize these important neighborhoods.

Two planning grants were completed during the year: a feasibility study for renovation of vacant upper floors in historic buildings downtown, and a plan with Rutland Economic Development Corporation (REDC) to spur industrial recruitment. Both projects will lead to more activity in the coming years.

One objective of RRA's grant administration is to increase the reimbursements obtained by the City from funding sources to cover the cost of running grant-funded programs. This keeps down the cost to City taxpayers. The target amount for the year was exceeded, so a healthy precedent has been set.

In summary, it was a good year for downtown Rutland, with the promise of even more growth to come.

Rutland Partnership

Harry Weinhausen, President of the Board

Richard J. Courcelle, Executive Director

To the Honorable Mayor, Board of Aldermen, and Citizens of Rutland City:

It is with pleasure that we submit a report on the activities of Rutland Partnership.

The headline from the June 1997 issue of *Vermont Magazine* says it all—"A Rutland Renaissance - Vermont's Second Largest City is Undergoing a Remarkable Downtown Transformation."

The 1996-97 period saw the greatest changes in the Downtown landscape since the revitalization of the downtown began in earnest in 1990. The addition of Wal-Mart, the nation's largest and most successful retailer, and the inauguration of Amtrak passenger rail service from New York City, highlighted this successful period. New retail stores, restaurants and service businesses opened, creating a sense of vibrancy not seen for decades. And reconstruction of Depot Park has created a wonderful greenspace for public activities such as concerts and a new Downtown Farmers Market.

In November 1996, the activities of Rutland Partnership were reaffirmed by a 3 to 1 margin in a vote of the membership. While advisory in nature, this overwhelming level of support gave Rutland Redevelopment Authority enough to reinstate the Special Benefits District ordinance for another three year period.

Rutland Partnership's 1996-97 program encompassed marketing and promotions, special events, streetscape improvements, community relations and business development initiatives. New for this period were programs to attract tourists such as the Rutland-Killington Shuttle, which brought skiers from the Killington area to Downtown and the Diamond Run Mall from January to April. The shuttle was a joint venture of Rutland Partnership, Marble Valley Transit and Diamond Run Mall. Rutland Partnership was instrumental, along with the Recreation and Parks Department, in bringing two farmers markets together to become the Downtown Farmers Market, with a new home in Depot Park. With the support of Mayor Wennberg and Police Chief Holmes,

Rutland Partnership advocated successfully for the re-establishment of Downtown foot patrols for the purposes of curbing "quality of life" crimes in the central business district.

In the past year, a Community Relations effort was established by the Partnership to promote the Downtown vision and to engage stakeholders and city government in the revitalization program. The objectives of this effort included: identifying issues of concern among Downtown stakeholders and determining best methods of resolution; creating dialogues with stakeholders and encouraging open lines of communication with Rutland Partnership; developing a strong and committed volunteer base for Downtown programs; clearly articulating the vision of Rutland Partnership and the Downtown Revitalization Program through creative communication programs; developing activities that foster a sense of community among Downtown businesses; and opening lines of communications among and between stakeholders in the Downtown Revitalization Program. This program has led to a more cohesive and informed Downtown business community.

Rutland Partnership applied for, and was awarded a \$9,625 grant from The Wal-Mart Foundation for a Streetscape and Greenspace Planting Program. The grant covered the replacement of dead and diseased street trees, an annual tree maintenance program, and the planting and maintenance of annuals, perennials and shrubs in vest pocket street gardens and the new Depot Park.

Great things are ahead for Downtown, including the Multi-Modal Transit Center and a new passenger rail station. But the challenges remain for this organization and the Downtown. In the next year Rutland Partnership will complete a substantial analysis of the regional retail economy which will provide vital information to effectively position Downtown in the ever-changing and competitive marketplace. We look forward to the coming year and the challenges that renewed vitality brings.

Regional Ambulance Service, Inc.

Paul Kulig, President, Board of Directors

Samuel J. Gorruso, R.A.S. Representative, City of Rutland

To the Honorable Citizens of the City of Rutland:

We are pleased to present our annual report to the Citizens of the City of Rutland. Regional Ambulance Service, Inc. has continually provided emergency and non-emergency ambulance service for fourteen years. From 1983 to the end of this year, Regional has responded to 53,991 ambulance calls. This past year, ending June 30, 1997, the service responded to a total of 5,513 ambulance calls in our 12 communities and an additional 1,467 paramedic intercept calls.

With the continued support of the citizens, our employees, and community governing bodies, we have level funded and even lowered our assessment rate over the past 13 years. Our current assessment rate is \$6 per capita. We extend our appreciation to everyone for their continued support.

Two new ambulances were put into service to replace older ambulances with over 100,000 miles of service on them. The replacement of vehicles and equipment is on an ongoing schedule.

Our employees are constantly updating their training to enhance the care given the people we transport. Training courses consist of Critical Care Paramedicine, Advanced Cardiac Life Support, Basic Life Support, Prehospital Advanced Trauma Life Support, Pediatric Advanced Life Support, Emergency Vehicle Operator, Bloodborn Pathogen and a variety of continuing education programs.

Monthly C.P.R. classes are taught at Regional Ambulance. Last year, through the R.A.S. Training Center, 829 people were certified in C.P.R. Tours, lectures, demonstrations,

and C.P.R. classes are available for the general public. For further information call 773-1746.

Our professional staff is extremely capable and dedicated. The public is encouraged to visit and talk to the employees and Administrator at our Stratton Road facility. Please feel free to contact James Finger, Administrator, or your Representative if you have any questions concerning the service.

We are proud of our accomplishments and look forward to serving you in the future. The Board of Directors, Administration and employees of Regional Ambulance Service, Inc. will continue striving to provide the highest quality of emergency ambulance care at the lowest possible cost to all of the citizens we serve.

Cemetery Commissioner's Report

Eleanor J. Elwert, Chairman

To the Honorable Board of Aldermen, and Citizens of the City of Rutland:

Rutland's two historic burial grounds on West St. and North Main St. are looking good thanks to the fine job being done by Turf Two in keeping the grass mowed. No complaints on that score this year. Another improvement is the trimming of the lower branches on many of the cedars bordering on the sidewalk fence on North Main St. The purpose there was to make it possible for the police to shine their car spotlights onto the grounds to make sure there was no vandalism going on in the dark.

Another improvement on North Main St. was the removal of 225 rocks from what was the original Congregational Cemetery area (near the Historic Marker). The rocks will be added to what will be a memorial garden on the grounds of Grace Congregational Church.

In West St. cemetery there is a mausoleum which had a rather unkempt appearance, so

Jim Northrup of Turf Two cleaned out the vines and brush gratis. Mr. Northrup has landscape design training and is mulling over what can be done to improve both cemeteries so they could be more easily cared for.

The most serious problem of both cemeteries is the broken gravestones. It happens to be a state law that a town cemetery commission should allocate funds to repair monuments. With a new millenium fast approaching it is certainly past time to make as whole as possible the 19th and 20th centuries historic cemeteries. Despite the City's financial difficulties, something needs to be done.

An interesting comparison with the condition of the Rutland area cemeteries in past years can be made by reading the Rutland Historical Society Quarterly, Volume VII, No. 4, Fall 1977, all of twenty years ago.

Rutland Historical Society

Donald E. Bordeau, President

To the Honorable Citizens of the City of Rutland:

The Rutland Historical Society continues its goal to interest and educate the community about its heritage. By offering programs, exhibits and quarterly publications, it hopes to create an awareness of the people, places and events that shaped Rutland's past.

This year, the Society has displayed the following exhibits: The Formation Of Proctor And West Rutland (1886), and Summer Leisure In The 1920's And 1930's.

Presently, the focus is on a series of mini-exhibits, such as the Nickwackett Fire Station (Permanent), the General Edward Ripley Family, 1890 Rutland Sanborn Insurance Maps, Howe Scale Co., Flood Of 1947 and The 19th Century Ladies In Their Finery.

Arrangements for small group tours can be made by appointment.

Seven quarterlies were published by the Society during the past year, beginning with Dr. Russell Irvine's, Martin H. Freeman Of Rutland. After completing speaking engagements at Middlebury College and Castleton State College, Dr. Irvine, a professor at Georgia State University, spoke of Rutland's Martin H. Freeman and his place in history as a black educator. As the result of a gift of a Goddard clock to the Society, Dawn Hance devoted the second quarterly to Rutland's early clockmakers—Lord and Goddard. Angela Hinchey, who has been editing the diaries of Charles B. Mead (1843-1864) wrote the third quarterly. It's entitled Charles B. Mead - A Young Man Of Promise.

The fourth quarterly, An Incident At Velletre On The Road To Rome, 1944, features first Society President Frederic P. Elwert's narrative of his experiences during the Italian Campaign in World War II.

James Davidson and Thomas Carpenter created a video on the Flood of 1947. It was

debuted on Channel 15 on the anniversary date of the deluge.

There have been several programs offered jointly by the Society and the Rutland Free Library.

The Society wishes to extend its appreciation to the following speakers: Sanborn Partridge (Crown Point Road), Dr. Russell Irvine (Martin H. Freeman-First Black College Professor in America), Eric Tichonuk (Steamboats on Lake Champlain), Peter Cooper (The Rutland Road) and Jack Anderson (The Civil War Trail In Vermont).

The collection of Marvel Swan, local genealogist, was given to the Rutland Free Library after her death. Part of this collection is housed in the glass cases of the Library's Vermont Room. Recently, the uncatalogued manuscript portion has been donated to the Society. Appreciation is extended to the Library and staff for their generosity.

The Society laments the loss of Carol Jones, who passed away. For several years Carol has chaired the nominating committee, conscientiously filling the slate of officers for the coming year.

At its annual meeting in October, the Society awarded two certificates of commendation to Elaine Purdy and Thomas Carpenter. Elaine diligently chairs the Publications Committee and serves as Co-Editor of the Quarterly. Tom, the Society's Treasurer, is a whiz at keeping finances in balance.

A special thanks goes out to all the volunteers who assist the Society in any way. They can move mountains when it's necessary.

All visitors are welcome at the Rutland Historical Society Building at 96 Center Street on Monday evenings from 6:00-9:00 p.m. and on Saturday afternoons from 1:00-4:00 p.m. We look forward to serving you.

Council on Aging, RSVP, One to One, Interage, and Foster Grandparents

To the Citizens of Rutland:

SOUTHWESTERN VERMONT COUNCIL ON AGING

The **Southwestern Vermont Council on Aging**, located in Building 14 at the Howe Center, is the private, non-profit community organization whose mission is to be a community force in making our region a good place to live and grow old. During the past year, 339 city residents were served by our Advocate/Case Management program, 41,154 meals were delivered to homebound elders and 8,831 meals were provided to participants dining at one of our two luncheon sites in Rutland City located at the Bardwell House and the Godnick Center on Deer Street.

Here is a brief description of some of the ways the Council on Aging serves elders residing in Rutland:

Case Management Program

Case managers are available to provide personalized help to elders in need of program information, service coordination, application assistance or linkage with other service providers.

Meals on Wheels

Meals are delivered to homebound older persons who need this service to help them continue living independently.

Community Luncheons

Nutritious meals are served around the noon hour in a group setting at two locations in Rutland.

Information and Assistance

The I&A service provides easy phone access to elders in need of information about services and programs.

Volunteers for Health Insurance

Benefits Program (VIP)

Volunteers are trained to help elders with health insurance paperwork, claim forms, and medigap policy comparison.

Peer Support

Seniors experiencing emotional stresses are offered support by volunteers who have been trained in listening and communication skills.

Community Development

This Council on Aging staff person works in partnership with community groups to identify elder needs and find local solutions. Participation in the development of the former Lincoln School property is one ongoing project.

Contracted Services

These include the Senior Law Project Attorney for Elders, the One 2 One Program for essential transportation and homemaker assistance through the Rutland Area Visiting Nurses.

Volunteer Opportunities

Driving for Meals on Wheels, helping at luncheon sites, being a VIP Volunteer, or a Peer Support Volunteer are some of the community service opportunities we offer.

Our services are available to all elders, 60 years of age and older, regardless of income. Although no fees are charged, donations from participants are encouraged. One call to the Council on Aging at 786-5991 can connect you with any of our services or other community services by referral.

RETIRED AND SENIOR VOLUNTEER PROGRAM

The **Retired and Senior Volunteer Program (RSVP)**, the largest program of coordinated volunteer services in this area, is a nationwide program designed for people 55 and older who want to help meet community needs through meaningful use of their skills and knowledge in volunteer service to non-profit organizations. Placements are made with an eye to well defined community needs and the impact the volunteer will have on his or her community. Outcomes of the placement are measured and documented as a method of accountability and for evaluation purposes. Currently, over 493 RSVP volunteers serve as mentors, advocates, library aides, tutors, receptionists, musicians, hospital workers, guardians-ad-litem, hospice workers, tax counselors just to name a few. They provides

services in area schools, courts, nursing homes and at over 80 non-profit organizations, based upon community needs, their individual preferences and the needs of organizations.

RSVP volunteers serve without compensation and can be reimbursed for mileage if it would be necessary in order for them to volunteer. In addition, all RSVP volunteers are covered by free, supplemental insurance while volunteering.

In 1997, RSVP volunteers, half of whom live in Rutland City, donated over 60,000 hours of service to our community. The cost benefit to our community in terms of services provided equals over \$480,000.

In response to an increasing need for volunteer efforts, RSVP has broadened its focus to include several innovative programs: **The Volunteer Center** is now located at the RSVP offices. Here, volunteers of all ages are being placed in community services. As a result we now offer many intergenerational projects such as the **Computers for Seniors Program** which we sponsored last year with the cooperation of the Rutland City High School. This free instruction for seniors was taught by advanced Computer Science students from Rutland High School and was so successful that it will be offered again in the fall of 1997. As agencies are faced with budget cuts, volunteer services are needed more and more. **Rutland Reads**, a response to the America Reads Challenge that was put forth by the federal government will place over 50 volunteers of all ages in Rutland City schools as mentors for the 1997-1998 school year. Volunteers will read to K-2 grade students on a weekly basis. Additionally, workshops will be held to assist parents on book selection and other reading tips, all with the goal of improving literacy by grade 3.

We thank the voters of the City of Rutland for your support in helping RSVP continue to provide its services. We invite you to contact us at 775-8220 if you would like to know more about our program. Our office is located at 39 East Center Street.

INTERAGE

Adult Day centers are the fastest-growing component of community based long term care. As the elderly population in our community increases, the option of adult day services

becomes more appealing. InterAge - Rutland Adult Day Program provides respite services to families and other caregivers of frail and/or handicapped adults, while offering a variety of daytime activities to program participants. InterAge offers a caring and stimulating environment, promotes integration within the community and aids in reducing or avoiding isolation.

Thanks to the City of Rutland and our local United Way, InterAge continues to offer quality services to its participants.

InterAge is located at 78 S. Main St., Rutland and is open Monday through Friday, 8:30 am until 3 pm. If you would like additional information, call 747-3587.

InterAge is a division of Rutland Community Programs, Inc.

ONE TO ONE

The One to One Program serves the elder population of Rutland County. A group of dedicated volunteers provide essential transportation, telephone reassurance and friendly home visiting, allowing individuals the opportunity to remain independent in their own homes. During the past year over 6,000 telephone contacts were made, 400 visits and 3,000 trips were provided.

One to One is located at 78 South Main St., Rutland. Office hours are Monday through Friday, 9 am until 12:30 p.m.. For more information call, 775-8219 or 775-4318.

One to One is a division of Rutland Area Community Services, Inc.

GREEN MOUNTAIN FOSTER GRANDPARENT PROGRAM

Foster Grandparents are low-income individuals age 60 and over who provide one to one assistance to children with special and exceptional needs. They serve children with disabilities, those who are abused or neglected, and teen parents and their children. Foster Grandparents volunteer twenty hours each week at a variety of sites. These sites include schools, day care centers, correctional institutions and hospitals. During the past year the Green Mountain Foster Grandparent Program utilized 70 volunteers, providing 70,000 hours of service to approximately 700 children.

The Foster Grandparent Program is a division of Rutland Community Programs, Inc.

Employees of the City of Rutland, Vermont

Earnings over \$300.00

From July 1, 1996 to June 30, 1997

If not stated separately, any applicable overtime is included in total earnings.

List of Unpaid Taxes as of June 30, 1997

The list of unpaid taxes is as it appears on the records of the City of Rutland as of June 30, 1997 pursuant to 1 V.S.A. Chapter 5 Subchapter 3.

Persons listed are the owner(s) of records as of April 1 of the year preceding the tax year shown. Subsequent to the date are taxes that are delinquent. The City realizes that transfers may have occurred subsequent to April 1 and that taxes became due and delinquent and such listed individuals may not be responsible for the amounts indicated.

Amounts shown are taxes only exclusive of interest and penalties.

Legend: P = Payments being made; * = Paid after June 30, 1997.
